

## Large Wheel Kit

**Attach the large wheel on the normal wheel.  
It is easy to attach and run on rough terrain.**

**Point 1**

***Attach and remove the large wheel easily and instantly***

**Point 2**

***This kit elevate the unit by 10 mm***

※ The distance values will be incorrect on Mini systems if large wheels are used.

## Portable Case

**Point 1**

***Dust / waterproof, storage space up to 3 batteries***

**Point 2**

***A unit with light shielding can be stored in case***

***There are many other options !  
Please contact me if you have any questions.***
