

GPR data processing for concrete inspection

Time-saving for post-processing survey data! *Marking all the points in a blink!*

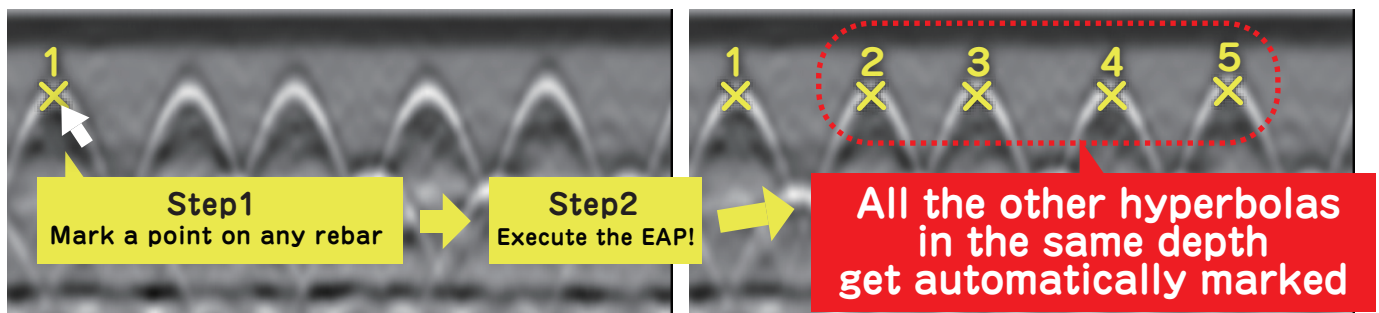

Taking too much time
for marking points on hyperbolas?

- Taking too much time for marking points on hyperbolas?  Solved
- We need to mark points on every lines in each file...  Solved

\\ New optional function “EAP” /

1. Automatically marking points on the same data
2. Also possible to mark on other files automatically

Marking the points done in a blink!

Just marking a point gets
other files' points
automatically marked as well!
